

# Hollow Form Pendant Class

## The Slab Technique

Taught by Helen Wyland-Malchow

**Supply List:** Please bring the following tools and supplies to class. Most items can be found in your local craft store.

*Favorite work surface- Glass or Plastic placemat from the dollar store. Non porous, smooth*

*Any tools you normally use*

*Pasta machine (If you are a beginner, please contact teacher, she may have one you can borrow)*

*Tissue or flex blade*

*Xató knife, (extra blade in case one breaks)*

*Acrylic roller*

*Pencil, 5-6 pieces of paper, smooth surface*

*If you like to work with texture or stamping tools, feel free to bring them but not necessary for the class.*

*Small container of corn starch*

*TLS (Translucent Liquid Sculpey), Teacher will have extra*

*Small paintbrush for TLS*

*Wet/dry sandpaper-1 sheet each 200, 400, 600 grit. (Found at local craft or hardware store.)*

*Premo Clay will be donated for the base by Polyforms Products,*

*bring 4-6, 2 oz. bars of your favorite colored Premo clay.*

All templates, hollow forms, molds and tiles will be supplied by the teacher.

A simple jellyroll and Mokume Gane technique will be taught as a base for beginners, Advanced and Intermediate student can use whatever technique they choose.

+++ Beginners- Not mandatory but will help you .... PLEASE watch some videos on how to make patterns or veneers on YouTube before you come to class. Practice at least one technique if you can.

+++ Intermediate and Advanced students, feel free to bring in veneers that you have already made. We can use them to do inlays and some marquetry

Teacher will Bring

Molds, ¼ inch sq. paper, light bulbs, curing tiles, example veneers
